

Veronafiere reschedules Oil & nonoil from 21 to 23 October

Last update: April 1, 2020
Author: Veronafiere S.p.A.

New dates for Oil & nonoil, the event organized by Veronafiere Spa dedicated to energy, fuels and services for mobility, which moves ahead of one day on the calendar. It will take place in Verona from 21 to 23 October 2020, in conjunction with Samoter and Asphaltica (21-25 October), exhibitions dedicated to construction machinery and the bitumen and road infrastructure sector.

"The evolution of the health emergency linked to the new SARS-CoV-2 coronavirus has made it necessary to rearrange the calendar of all the events in our portfolio. We believe that the co-presence of Samoter can develop important synergies for the two sectors, aiming to strengthen the identity of Oil & nonoil not only as a commercial event, but also as a place of discussion on the transformations taking place in the market, especially linked to technological innovations and new sources of energy, thanks to a rich program of conferences and workshops" said Flavio Innocenzi, commercial director of Veronafiere SpA.

The new dates have been shared with the trade associations that have contributed in making the Veronese edition, together with the one that alternates from year to year in Rome at Palazzo dei Congressi, the only national event in the supply chain of liquid and gaseous fuels from the deposit to the tank.

If you have any questions, please check our website or get in touch with the organisers.
